let's take shelter
beneath *the* Greek
portico looking
out at a lush *green*
plateau;

you are
my one *and* only
partner;

without you
i am fractured, *just*

partial;

I'll fight

for our love no

proviso. Truthfully

changing my

actions now. you'll

perceive; I'll remember

the mistakes and

the promises;

our

soul bond is for
from placebo;

you've
worked so hard
to help preserve
the magic in
everything that
we provide;

together
we will explore

and uniquely
pioneer;

sailing
misunderstanding's
oceans larger than
the Pacific;

crafting
art as vivid as
a Picasso;

solving

by listening
attentively to
each

problem;

I'll hold you **through**
all the pensive

reflection

on **the** long trust
stressing process;

you alone see my
masks and personas;
you alone bring out
my inner playfulness
;

you alone save me
from tragic
pitfalls

— your baby
